

Join the Future of Foiling with Halo Efoils

A Safe, Exciting, and Rewarding Opportunity

At **** Halo Efoils****, we believe efoiling is more than just a watersport — it is a lifestyle, a business opportunity, and an industry poised for major growth.

While the excitement of efoiling, earning income, and building a fun lifestyle business is appealing, our **number one priority has always been safety**.

We have spent years refining our systems, products, training, and support network to create a proven path for people who want to get involved in the efoil industry the right way.

Whether you are interested in becoming an instructor, dealer, referral partner, or simply exploring a new business opportunity, Halo has developed a step-by-step system designed to help you succeed safely and professionally.

Why Work With Halo?

Halo is committed to:

- ✔ Keeping people safe on the water**
- ✔ Delivering unforgettable experiences and smiles**
- ✔ Helping passionate people build meaningful businesses**
- ✔ Growing the efoil industry responsibly and professionally**
- ✔ Providing premium technology, training, and support**

Our mission is simple:

To grow one of the most exciting industries in the world — safely, professionally, and together.

Step 1: Start With Knowledge

Before purchasing equipment or teaching lessons, we strongly recommend beginning with education.

Halo Efoil Knowledge Course

Our professionally designed knowledge course helps you:

- Understand the fundamentals of efoiling
- Learn about Halo products and technology
- Understand the business opportunities within the industry
- Learn safety protocols and best practices
- Determine whether the efoil lifestyle and business are the right fit for you

This first step ensures you are making an informed decision and entering the industry with realistic expectations and strong foundational knowledge.

We believe education comes before operation.

Step 2: Become Certified

If after completing the knowledge course you feel Halo is the right fit, the next step is professional certification.

Halo 3-Day Efoil Instructor Certification Program

We recommend enrolling in our **Transport Canada–recognized certification program**, designed to provide hands-on practical experience, safety procedures, operational confidence, and teaching fundamentals.

This immersive training helps you:

- Build riding confidence
- Learn safe teaching practices
- Understand risk mitigation and water safety
- Learn equipment setup and operation
- Develop confidence instructing new riders

Our certification process is designed to create **safe, professional, and highly capable instructors** who represent the Halo brand with excellence.

Safety is not optional at Halo — it is the foundation of everything we do.

Step 3: Build Your Efoil Operation

Once trained and certified, many of our partners begin with a simple and proven model.

The Recommended Starting Setup: Two Boards

We recommend beginning with **two Halo Phantom efoils**:

Board One: Your personal riding board for practice, confidence, and demonstrations.

Board Two: Dedicated for student instruction and lessons.

This creates the ideal foundation for:

- One-on-one lessons
- Safe instructional practices
- Better customer experiences
- Increased reliability and operational flexibility

As your business grows, additional boards can be added to increase lesson capacity and support additional certified instructors.

Our system is intentionally designed to help operators **scale safely and responsibly**.

The Halo Phantom Advantage

The **Halo Phantom** is designed to stand apart in both safety and innovation.

Key highlights include:

- **Patented visibility technology** designed to maximize rider visibility
- **The most visible efoil in the world**
- **North American patented technology**
- Premium engineering and forward-thinking design
- Built with safety, reliability, and premium performance in mind

At Halo, we believe innovation should never come at the expense of rider safety.

The Halo Referral Program

Owning a Halo Phantom also unlocks access to one of our most rewarding opportunities:

Earn \$2,000 Per Successful Referral

Because of Halo's premium products, training systems, and innovative technology, we have found that many riders naturally introduce others to the sport.

When someone you refer purchases through Halo:

You earn a \$2,000 referral reward

The process is simple:

1. Introduce the prospective customer to Halo
2. Our team handles consultations, questions, and sales
3. We keep you informed throughout the process
4. You receive your referral reward after a successful close

We believe in rewarding the people who believe in Halo and help grow the community.

This model has become one of the most effective and authentic ways we continue expanding the Halo ecosystem.

Insurance Opportunities for Qualified Operators

For proven instructors with strong safety records and professional operating standards, **insurance options may be available through Halo partnerships.**

We work to support serious operators who:

- Prioritize safety
- Demonstrate professionalism
- Maintain strong business practices
- Represent the Halo mission responsibly

We are committed to building long-term partnerships with people who are serious about growing professionally in the industry.

Who Is Halo Looking For?

Halo is best suited for individuals and businesses who are:

- Passionate about watersports
- Safety-focused professionals

- Entrepreneurs seeking a fun and exciting business
- Existing marine, boating, surf, or watersports operators
- Lesson schools looking to expand offerings
- Individuals who genuinely enjoy helping others

We are not interested in shortcuts.

We are interested in **building something meaningful together.**

Our Promise

At Halo, our mission goes beyond selling efoils.

We are building a global ecosystem focused on:

Safety First

Creating Smiles and Incredible Experiences

Professional Growth Opportunities

Industry Leadership Through Innovation

Long-Term Partnerships

The efoil industry is still in its early stages, and we believe the future is incredibly bright.

If you are excited about joining one of the fastest-growing premium watersports industries in the world — and doing it the right way — we would love to hear from you.

Let's grow something epic together.
